Dear [REDACTED]

A very merry Christmas and a Happy new year to you.

25X1A6a

I am extremely sorry for my long silence since I left [REDACTED] last September. But I have never forgotten your kindness and considerations while I was with [REDACTED]

FOIAb3b1 !

Since I have worked for the [REDACTED] more than three years, it was quite a painful thing to leave this organization, however I also thought that I am able to be a more useful person if I could complete my engineering education in the United States.

FOIAb3b1

When I came to this institute, nothing was certain with me, nobody knew that whether I can finish my schooling in one year or not.

Now I have successfully completed the first term of the graduate course towards to master's degree, and it has almost become certain that I am able to get the degree of master of science in engineering by the end of this academic year, June 1953.

It may be too early to ask you such a question, however I do think that it is always safer to think of my future in advance.

As it is almost clear that I can finish my schooling in this year, I would like to work for the [REDACTED] again as soon as I completed my course.

FOIAb3b1

My favorite position is a board engineer, however I still have keen interests in cruising also.

Please be kind to consider my future with the [REDACTED]

FOIAb3b1

But if there would be no opening in the [REDACTED] I would like to work for the VOA or Air Force installations. In that case I would like to ask your favor in introducing me to these agencies.

FOIAb3b1

25X1A9a

I am also writing to [REDACTED] a letter concerning this problem.

Sincerely yours,

s/
